

DANIEL FARO

Front end developer with 7+ years experience building scalable React applications for startups and enterprises. Expertise in optimizing performance and increasing user-engagement for industries ranging from Education to Finance. Continuously expanding full-stack proficiency and excited by impactful projects that drive real-world change.

EXPERIENCE

July 2024 - Present | NoPlex, Philadelphia, PA

Consulting Front-End Engineer

- Rolled out new features for task management web/mobile App.
- Increased user-retention by 15% through performance optimization.
- Improved data collection by 90% with google tags and click tracking.

Nov 2022 – July 2024 | Self, Philadelphia, PA

Freelance UI Developer

- Designed and maintained a site for Jefferson University students to enroll and pay for Radiology lectures. Raised over \$20,000 for guest speakers.
- Made a dog info app helping users to learn more about various breeds using React, Zustand, and ChartJS.

October 2021 – October 2022 | Shift4, Allentown, PA

Software Engineer III

- Developed client-facing features (e.g. custom tipping) for a POS application handling 1000s of secure transactions daily.
- Reduced initial load time for mobile devices by 3 seconds with modern React tools such as lazy loading and list virtualization.
- Revamped checkout flow to decrease clicks necessary for purchase.

July 2019 – October 2021 | Cadent, Philadelphia, PA

Associate Front-End Engineer

- Built out the shared component library with Storybook.
- Used Jest and React Testing Library to reach code coverage over 90%.
- Added an interactive advertising purchase history to the client dashboard.

December 2017 – September 2018 | Project One, Philadelphia, PA

Junior Front-End Developer

- Led the front-end team of an innovative web app for college students to learn and practice calculus.
- Built a fully functioning MVP in 10 months using React/Redux.
- Mentored 3 recent graduates in React development and modern tooling.
